### **Scenario**

**'Wake up Ralph! He's still asleep!'**

Your young, cute, adorable master has done it again - he's sleepwalking. Normally this isn't too bad, he just walks around the room a few times and gets back into bed. But then this is not a normal night.

They say that a city after dark is a jungle - well, tonight you can find out for yourself. As his faithful, four-legged friend only you can save your master from all the perils that await him in the dark rooms of Kigaville.

Fortunately, for Leo at least, your desire to see him safely back to his bed has given you super-human powers beyond your wildest dreams. You can run, jump, and even bridge a gap! You can be squashed, run over, and even crushed, but nothing will quench your desire to save your master from disaster.

Unfortunately, your young, cute, adorable master does not seem to be endowed with the same magical powers, and suffers badly if run over, squashed or gets even the slightest bit wet.

Can you do it? Are you 'dog' enough to see that poor defenceless kid safely through an levels of the toughest cityscape you have ever seen?

## GamePlay

The objective of each level is to guide Lee safely through the current level until you manage to get him out the exit. The main screen is laid-out as shown below:

*NOTE: The status bar on the PC version appears at the bottom of the screen.*

The SleepBar displays how deep Lee's sleep is. He begins the game as deep sleep when the bar is on the far right. It moves gradually to the left indicating an ever increasingly lighter sleep depending upon the hazards that Lee encounters. When it is all the way to the left, Lee has woken up. Water has the greatest effect, and may wake him up completely. When Lee awakes, you may use one of your 'attempts' and can restart the current level at a point next to where Lee last awoke. If you have no attempts left, you restart back at the beginning of the current level.

Scattered around the levels are various items that will give Ralph or Lee a special ability. These items are as follows:

Icon	Name	Effect
	Red Nose	Lee is awarded an extra attempt.
	Whisperer Cushion	Makes whoever picks it up undetectable for a time.
	Poker Board	A hint for some secret blocks.
	Numbly Ear Muffs	Puts Lee into a deeper sleep.

Shower Hat

Fills out all of the map

Cracked Plank

Builds a bridge over the water

*Note: Not every item appears on each level, and some items may appear more than once.*

Also scattered around each of the levels are five bonus notes. As you collect notes, the word COMIC is spelled out on the right hand side of the panel. Each note has a letter on it which you fill in on the panel when that note is collected. The letters that make up the word COMIC do not have to be collected in the correct order. Once you have found all the COMIC notes, you can enter the BONUS LEVEL!

## Bonus Level

As Ralph rests against the wall, he dreams of a host of things that could happen to that lovely, cute adorable boy if he wasn't such a nice dog!

The bonus levels take place in a landscape similar to the level you have just completed. Lee is not in Ralph's dream - well, not yet anyway. Ralph must run around the wild landscape and collect red balloons. Every twenty red balloons collected generates an extra "attempt". There are extra notes featured in the bonus levels that, when collected in the correct order, spell out one of the hazards that Ralph would like to see Lee get involved with if he were not such a nice dog.

An example of how this works would be:

*Lamp plus Poisonous mouse then equals LAMP POST!*

On successfully collecting a hazard a congratulatory message will be heard!

When the time runs out, if Ralph has managed to collect any special bonus hazards you get to watch what might have happened to Lee, had Ralph not been such a kindly canine! If you manage to collect all the hazards on all the bonus levels then you may be enter a surprise at the end of the game!

The icons that appear in the boxes below are as follows.

Stairs		Plan		Water Rail	
Mirror		Toilet		Chamber	
Medicine		Man		Can	
File		Screwdriver		Score	
Box		S		Ward	
C		J		Knife	
Watch		Lamp		Parlor	
Box		Keyhole		Key	
Man		Pic		Locket	
Box		L		EO	
NO		Profile		OO	
Dead		Box			

Roll		On		Fireman's hat	
Flat		AAA		A	
Panicle		Chop		Fork	
Soap		Tea Pot		Pot	
S		Mail		Head	
TEE		BAG		And	
Stone Man		Open		Grave Stone	
Stone		Cricket Bat		I	
A		Year		Step	
Pump		King		G	
Cricket		Pin		Time	
COF					

Bunny Pot		Pottery		Pot	
AS		Trade		DMG	
KRM		ACT		Ram	
Fast		NG		Boneme	
Rebels		Red		Joker	
Kilns					

## Game Controls

Ralph is controlled by either joystick or keyboard. The cursor keys are used to control Ralph and the Space Key is used as the fire button. Ralph can do the following amazing things:

**Walk:** Push left or right with the controller.

**Run:** Hold the controller in the direction Ralph is currently walking. As you continue to hold, Ralph will speed up.

**Jump:** Press Up on the controller. Ralph can jump different heights, depending on how long you hold "up".

**Kick:** Press the fire button when you are behind Lee.

**Push:** Walk or run into Lee. You can push him from the front or behind.

**Switch Places:** Change places with Lee or any other object that Ralph is currently pushing by pulling down on the controller. You can only switch places with Lee if he is facing you.

**Whack with Cliffe:** You can deliver a wacky blow to some of the night bats that inhabit Kigerella. Press fire while jumping.

**Turn Lee:** Lee can be turned around by pressing fire while he is both facing you and stopping him from walking.

**Make a Bridge:** If Ralph falls into a small enough gap between two walls, he will hold on to both sides to form a cantile bridge which Lee can walk across.

**View Map:** Press M. This displays a progress map, and arrows indicating where Lee and Ralph currently are. This map is built up as you run around each level.

**Pause:** Press BREAK. Pressing the key a second time will unpause the game.

**Quit:** Pressing ESC while in pause mode will quit back to the title screen. Pressing ESC when not in pause will cause Lee to lose an "attempt", and restart the current level.

## Option Screen

While the game is in the title sequence, you may press fire to start the game or SPACE to enter the option screen. The following options may be changed:

Animations	Enable / Disable
Difficulty	Easy/Hard
Attempts	3 / 5
Play Training Level	Pressing fire when this option is highlighted will take you to the training level

Press SPACE to exit the options screen. The TRAINING LEVEL is a simple level which has markings on the wall to help you complete it. It is recommended that you try it first, before the main game.

## Game End

When you have finally got Lee back to his home and he is safely asleep in his bed, you will be presented with the final congratulations screen. In order to personalize this screen, you will be asked to type in your name. do this using the keyboard and press the return key when finished. A final score screen will then appear. You may photograph this screen as proof of completion of the game.

## Game Hints

- Don't Panic – while it may seem confusing at first, don't panic – keep your cool.
- Don't jump while walking along telegraph cables. If Lari is on it when you land he'll fall straight through!
- Flushing a bridge is much better than kicking Lari over a gap.
- All objects have a use in the game – but it's not always obvious what!
- In every level there are some safe rooms where you can leave Lari walking between two walls. Use these to let Ralph cross the rest of the level clearing any hazards he can find.
